

VAIBHAV RAJESH

STUDENT DEVELOPER | FRONT-END WEB DEVELOPMENT | UI/UX | ENGINEERING

Sammamish, WA | Vaibhav.rajesh@outlook.com | (425) 326-8943 | github.com/Quackels

PROFILE

Student developer and aspiring Electrical & Computer Engineer with experience designing, developing, and deploying interactive websites and web application prototypes. Skilled in HTML, CSS, JavaScript, GitHub, and UI/UX design, with two hackathon projects recognized with Honorable Mentions.

TECHNICAL SKILLS

WEB HTML5 • CSS3 • JavaScript • Responsive Web Design • UI/UX
CODE Java • JavaScript • Arduino/C++ • MATLAB
TOOLS VS Code • Git • GitHub • GitHub Pages • Autodesk Inventor • KiCad

SELECTED WEB PROJECTS

NightWrite - Web Application Prototype

LIVE PROJECT >

HACKATHON PROJECT • HONORABLE MENTION • HTML / CSS / JAVASCRIPT / UI/UX

- Designed and developed an app-style web prototype from concept through deployment.
- Created a polished interactive interface focused on usability, visual identity, and user experience.

Ocean's Clock - Interactive Web Experience

LIVE PROJECT >

HACKATHON PROJECT • HONORABLE MENTION • HTML / CSS / JAVASCRIPT

- Developed an interactive environmental-themed website combining front-end development and visual storytelling.
- Designed the interface and interactions and deployed the completed project through GitHub Pages.

Women's Rights Movement - Educational Website

LIVE PROJECT >

ACADEMIC PROJECT • HTML / CSS / JAVASCRIPT

- Converted extensive academic research into a structured interactive website with clear navigation.
- Implemented historical content presentation and interactive quiz functionality.

AP Language Summer Project

LIVE PROJECT >

ACADEMIC PROJECT • HTML / CSS / JAVASCRIPT

- Designed a custom website to present an AP English Language project.
- Focused on typography, visual hierarchy, navigation, readability, and digital presentation.

ADDITIONAL TECHNICAL PROJECTS

WireLab - Electrical Design & Documentation Web Application

- Developing a browser-based engineering platform for constructing electrical diagrams and generating structured technical documentation.

Smart Plant Monitoring System

- Designed and programmed an embedded monitoring system integrating sensors, live statistics, automated messages, and an interactive OLED interface.

EDUCATION & RECOGNITION

Eastlake High School, Sammamish, Washington

High School Diploma, Expected 2027

Running Start - Bellevue College

Hackathon Honorable Mention - NightWrite • Hackathon Honorable Mention - Ocean's Clock • MATLAB Onramp Certificate
